DIFFERENTIATORS

Experienced Program & Acquisition Leadership

Leadership experience managing complex government acquisition, technology and operational initiatives, including schedules, budgets, deliverables, contractor performance, risks and executive reporting.

Government Customer Perspective

Experience working directly with program offices, acquisition organizations, senior leaders and contractors provides an understanding of government requirements, documentation, performance expectations and mission priorities.

Flexible Teaming Model

Purpose-driven teams can combine disciplined MMG program management with specialized professionals, consultants and strategic teaming partners while maintaining centralized accountability for performance, quality, schedule and results.

Small-Business Agility

Responsive management structure designed to tailor qualified professional and operational support to individual customer requirements and rapidly evolving mission needs.

LEADERSHIP EXPERIENCE

Federal IT, Acquisition & Program Management: Senior-level experience administering enterprise acquisition mechanisms and leading acquisition projects involving strategic sourcing, budget execution, contractor oversight, organizational planning, performance reviews, schedules, milestones and corrective actions.

State Program & Property Management: Managed a statewide real-property portfolio exceeding 200,000 square feet and served as Project Manager/COR for construction, services and commodity contracts.

Military Operations & Leadership: U.S. Army aviation officer with experience commanding and supervising multidisciplinary organizations, directing operational planning and logistics, managing risk and resources, and maintaining accountability for multimillion-dollar assets.
